

IMO Dark Meteor Survey Report Form

As a supplement to the article by Alastair McBeath in WGN 29:1/2 (February/April 2001), we give his Survey Form for dark meteors in this issue. We would like to apologize for not having published the Form in time.—Eds.

Once completed, please return this form to:
 Alastair McBeath,
 12A Prior's Walk, Morpeth, Northumberland, NE61 2RF, England, U.K.
 or e-mail the data to: <vice_president@imo.net >

<p>Date (yy/mm/dd): _____ Name: _____</p> <p>Correspondence address: _____</p> <p>Site location (town, country): _____</p> <p>Longitude: _____ Latitude: _____ Altitude: _____</p> <p>LM: _____ Other sky conditions: _____</p> <p>Please circle as appropriate to answer:</p> <p>Observed during meteor watch? Yes No - if "Yes", please give watch start and end times: _____</p> <p>Your fatigue condition: very alert alert normal tired very tired</p> <p>Were you observing in: glasses contact lenses neither</p> <p>If you have never reported a dark meteor to this project before, please state: Your age: _____</p> <p>Any known eye defects: _____</p> <p>How many years have you been observing meteors for: _____</p> <p>Do you consider yourself a regular occasional casual novice observer? (Please circle one answer only)</p> <p>If you did not make this sighting visually, please state equipment used: _____</p> <p>For each dark meteor, give its appearance time in UT, and describe what you saw: _____ _____ _____ _____ _____ _____ _____ _____</p> <p>© International Meteor Organization • Provided by the NASA Astrophysics Data System</p>
