SMITHSONIAN INSTITUTION,

WASHINGTON,

185

The Smithsonian Institution is now making preparations to send copies of its publications to the different Libraries and Societies in Europe and other parts of the world, with which it is in correspondence. As in previous years, it will undertake the transmission and safe delivery of the publications of other American Institutions, on the following conditions:

1st. The volumes or publications to be put up in compact packages, enveloped separately to each particular address. They must not be sealed, although they can be pasted up or tied. Unsealed letters may be placed inside the parcel, or sent separately. *In no case will sealed letters or packages be forwarded by the Institution.*

2d. The packages must have their addresses marked legibly in full, (if German, they must be in Roman character,) and the name of the donor must be endorsed on each.

3d. The parcels must be delivered in Washington, free of expense to the Smithsonian Institution.

4th. A detailed and full invoice of all the addresses on the parcels must be sent separately, in advance, by mail.

5th. The parcels should conform as nearly as possible in length and breadth to the corresponding dimensions of the Smithsonian Contributions to Knowledge, if in quarto, or to half this size, if octavo. Octavo pamphlets should not be folded.

6th. No charge will be made for the expenses of sending from Washington, if the parcels be moderate in bulk. In any case the proportion of actual expenses will be alone called for.

If desired, the Smithsonian Institution will make the selection of the most suitable recipients of any publications. In this case nothing but the name of the donor need be marked on the parcels.

The next transmission of packages from the Smithsonian Institution will take place about the

Your parcels should be in hand by the _____, and the lists sent by mail at the earliest possible moment. These will be wanted considerably in advance of the parcels, in order to make out the complete invoices for each different address before commencing to pack.

You are requested to report immediately whether you desire to make use of the Smithsonian Institution on this occasion.

Very respectfully, your obedient servant,

JOSEPH HENRY,
Secretary S. I.

Estimates for Printing Annals of the Observatory.

In 1853 Mr. Nuttall & Co. estimated the cost of printing, paper and prep work of 500 copies - 500 pages, at \$1550.00

1854. April 5th Nuttall & Co. gave in the following estimate.

Letter prep, including paper 500 copies - 3 dollars.

per page 150 pages \$450.00

Tables - including paper 500 copies of 378

pages - at 5 dollars per page 1890.00 2340.00

called on the President who advised me to obtain another estimate from some other source in order to satisfy any future enquirers. Thought that if Nuttall & Co. would furnish the work and materials for two thousand dollars it would be best to engage them, as we should have confidence in it being well done; subsequently I obtained the following offers.

From Dr. Bartlett April 11th 1854.

Setting up type and prep work for Tables

378 pages 500 copies, at 3.50 per page 1323.00

Letter prep 150 pages 500 copies 1.75 per page 262.00

Paper for 500 copies 400.00

1985.00

Mr. Allen and Farnham's Estimate.

April 12 -

380 pages Tables composition per page 1235.00

120. pages letter prep 120.00

Prep work 63 forms, at 2 doll. per form 126.00

40 Reams of Paper at 6 doll. per ream 240.00

30 - pages additional letter prep 55.00

1776.00

Mr. Allen & Farnham say it will not vary twenty dollars from their estimate.

Mutualp & Co: Third Estimate

1854. April 12th

Setting type, printing, press work and paper
 17.50¹⁰⁰ dollars per form of eight pages - 500 copies —
 assuming the ratio of 378 pages of Tables to
 150 pages of letter press.

7p 1/2

April 12- I made the offer of four dollars per
 page - assuming there would 500 pages —

2000..00

- " 13 - Mutualp & Co agreed to print the annals
 of the Observatory, finding paper at 4 dollars
 per page - 500 copies - assuming the ratio of
 378 pages of Tables and 150 letter press, or at that
 rate - and to give us two pages of proof daily,
 see their letter of this date.
